Add-Ons

Popular add-ons can be attached to any video package above that don't include them, or we can work with you to create a custom package of coverage, hours, videographers, edits, locations, and even days!

Edits

\$700 Highlight edit: mixes the best bits of the entire day into a 5-8 minute long edit with music. External audio source syncing, color matching and correction, stabilization, transitions and titles all included.

\$900 Documentary edit: all preparation, full ceremony, all speeches and formal dances in their entirety. Synced external audio sources and color correction, transitions and intro titles if desired.

\$600 Ceremony / Reception edit: Just the ceremony or reception events in their entirety start to finish cut from the best view of the cameras. Synced external audio sources and color correction, transitions and intro titles if desired.

\$300 Social edit: A 60 second highlight of the day's events perfect for social media. Ready in 1 month.

Optional Extras

\$800 2nd Videographer: Coverage is irreplaceable on a wedding day, and so is another skilled videographer with an additional camera to capture them! This is a must have for wedding days where the bride and groom are separate for hours at a time, or events happen at multiple locations.

\$200 Low Quality Raw footage: These are HD resolution simplified video files capable of being edited on a lightweight computer, phone, or tablet for use on social media. No color correction, audio or video syncing is applied. No copyright outside of personal use is granted.

\$400 Edit quality Raw footage: These are full quality 4K resolution video files as captured by the cameras. Capable of being edited on a high end or purpose built editing computer for use on social media. No color correction, audio or video syncing is applied. No copyright outside of personal use is granted.

\$300 Drone: Video coverage of your venue, and some select events throughout the day. Base fee includes 1M in liability insurance. Fee is a flat fee charged regardless of actual flight time. Rates and availability vary with location.

\$400 Ceremony OR reception Livestream (30 minute maximum): Simple single camera livestream for ceremony. Bonded Teradek Encoder allows redundant streaming in HD quality from one of my cameras with DJ audio output to Youtube livestream. Livestream is not public and can be shared via a link only. Comments from viewers optional, and permanent Youtube hosting optional (stays hosted on Youtube permanently).

\$800 Ceremony OR reception Livestream (2 hour maximum): Simple single camera livestream for ceremony. Bonded Teradek Encoder allows redundant streaming in HD quality from one of my cameras with DJ audio output to Youtube livestream. Livestream is not public and can be shared via a link only. Comments from viewers optional, and permanent Youtube hosting optional (stays hosted on Youtube permanently).

\$2000 Full day livestream (up to 8 hours): Simple single camera livestream for ceremony. Bonded Teradek Encoder allows redundant streaming in HD quality from one of my cameras with DJ audio output to Youtube livestream. Livestream is not public and can be shared via a link only. Comments from viewers optional, and permanent Youtube hosting optional (stays hosted on Youtube permanently).
